

LIST OF CONTENT

Study on The DEVELOPMENT of 35,000 MW POWER PLANTS In Indonesia, 2015-2019 "

1. INTRODUCTION

- 1.1. BACKGROUNDS
- 1.2. PURPOSE AND OBJECTIVES
- 1.3. SOURCE OF DATA

II. NEW ENERGY AND RENEWABLE

- 2.1. NEW ENERGY AND RENEWABLE
- 2.2. GEOTHERMAL
- 2.3. WATER POWER PLANT
- 2.4. MICROHIDRO POWER PLANT (PLTM/MH)
- 2.5. SOLAR POWER PLANT (PLTS)
- 2.6. BIOMASS
- 2.7. WIND POWER PLANT (PLT B)
- 2.8. MARINE ENERGY
- 2.9. COAL BED METHANE (CBM)
- 2.10. COAL SLURRY
- 2.11. NUCLEAR

III. AVAILABILITY OF POWER PREMIER

- 3.1. COAL
- 3.2. NATURAL GAS
 - 3.2.1. Muara Karang and Priok
 - 3.2.2. Muara Tawar
 - 3.2.3. Tambak Lorok
- 3.3. LNG AND SMALL-LNG
- 3.4. CNG (COMPRESSED NATURAL GAS)
- 3.5. FUEL MIX INDONESIA
 - 3.5.1. Sumatera Fuel Mix Goal
 - 3.5.2. Jawa-Bali Fuel Mix Goal
 - 3.5.3. Eastern Indonesia Fuel Mix Goal

IV. ELECTRICITY CONDITION IN INDONESIA

- 4.1. SALES OF ELECTRIC POWER
 - 4.1.1. Amount of Customers
 - 4.1.2. Electrification Ratio
 - 4.1.3. Electrified Village Ratio
 - 4.1.4. Peak Load Growth
- 4.2. POWER PLANT SYSTEM CONDITION
 - 4.2.1. Sumatera Region
 - 4.2.2. Jawa-Bali Region
 - 4.2.3. Eastern Indonesia Region
- 4.3. TRANSMISSION SYSTEM CONDITION
 - 4.3.1. Sumatera Region Transmission System
 - 4.3.2. Jawa-Bali Region Transmission System
 - 4.3.3. Eastern Indonesia Transmission System

V. ELECTRIC POWER DEMAND

- 5.1. INDONESIA ECONOMIC GROWTH
- 5.2. INDONESIA POPULATION GROWTH
- 5.3. AMOUNT OF HOUSEHOLD
- 5.4. ELECTRIFICATION RATIO
- 5.5. ELECTRIC POWER DEMAND

VI. DEVELOPMENT OF 35,000 GW POWER PLANT

- 6.1. ADDITION OF POWER PLANT CAPACITY
 - 6.1.1. Addition of Power Plant by Type in Sumatera Region
 - 6.1.2. Addition of Power Plant by Type in Jawa-Bali Region
 - 6.1.3. Addition of Power Plant in Eastern Indonesia Region
- 6.2. ADDITION OF TRANSMISSION NETWORK AND RELAY STATION
- 6.3. DISTRIBUTION SYSTEM AND RELAY STATION DEVELOPMENT
 - 6.3.1. Sumatera Region Distribution System Development
 - 6.3.2. Jawa-Bali Region Distribution System Development
 - 6.3.3. Eastern Indonesian Region Distribution System Development
- 6.4. DEVELOPMENT OF DISTRIBUTION SYSTEM
 - 6.4.1. Sumatera Region Distribution System Development
 - 6.4.2. Jawa-Bali Region Distribution System Development
 - 6.4.3. Eastern Indonesia Distribution System Development

VII. DEMAND & SUPPLY OF ELECTRIC POWER BY PROVINCES (34 Provinces)

Each Provice Shows :

- Recent Electricity Condition
- Projection on Electric Power Demand
- Development of Electricity Utility
- Summary

VIII. INVESTMENT FUND REQUIREMENT

- 8.1. Projection on Investment Fund Requirement in Sumatera
- 8.2. Projection on Investment Fund Requirement in JAWA-BALI
- 8.3. Projection on Investment Fund Requirement in Eastern Indonesia

IX. CONCLUSION

ATTACHMENT

- LIST OF ELECTRIC POWER (CAPTIVE POWER)
Power Plant Setted up by Owner
(by industry and commercial customers)
- INDEPENDENT POWER PRODUCER (IPP)
Out of P.T. PLN (Persero) Business Area
- LIST OF IPP ENTHUSIAST ON THE MOUTH OF MINE
- LIST OF DEVELOPER THAT SUBMITTED PROPOSAL
ON STEAM POWER PLANT ON THE MOUTH OF MINE
